

MASTER PROOF - Rotogravure

This master proof is used to produce the tooling and set-up for your packaging project. Every effort has been made to incorporate all information furnished by you in regards to size, feature locations, artwork, colors, and other pertinent data applicable to your project. ***This proof supersedes all prior proof versions, purchase orders, emails, verbal directions, digital files, and any other written or verbal communications.***

ERRORS & OMISSIONS: It is the signer's responsibility to review and approve all information on this master proof including artwork, type, plate count, material specifications and die line features. If misinformation is present and/or if there is information missing, please make a note and indicate Not Approved or Approve with Changes ***Manufacturer of this packaging project is not responsible for the adherence to regulations set forth by third-party agencies in regard to product claims, editorial content, & graphic design.***

COLOR MATCHING: This proof represents approximated process and/or spot colors via inkjet print on paper stock or via RGB pixels on a monitor. To specify a color match document OTHER than this Master Proof, make a note below. PMS colors printed on film may look different than PMS colors printed on paper stock in the PMS book. White ink is not opaque. ***Therefore, the color represented on this proof differs from actual ink on film. Material film and lamination can also affect final printed color.***

PRODUCTION TOLERANCE: Dimensions and feature location are +/- 1/16".

DELIVERY SCHEDULE: Refer to Sales Order Confirmation. Established by date of receiving BOTH Signed Proof and Color Match documentation.

Signature: _____ Name: _____

Title: _____ Company: _____

Date: _____ ☐ APPROVED As Is (No changes)

☐ NOT APPROVED. (Additional Proof Required) ☐ Approved WITH Changes (As noted, or document attached.)
